

Grayhawk Neighborhood Park

Scottsdale, Arizona

The Park at Grayhawk is the family-oriented residential village of Grayhawk that centers on a combined 25-acre elementary school and neighborhood park site with an adjacent private elementary school.

The fifteen-acre neighborhood park provides a variety of sport and play activities, including a preschool playground, two ballfields, tennis, sand volleyball, basketball, and multi-use park walks. The park opens up views to the McDowell Mountains, Pinnacle Peak, and to the valley beyond.

LVA provided conceptual design, Development Review Board submittals, landscape architecture and construction documents for park facilities.
