

Portales is a high-end residential community designed for the TW Lewis Company. Distinctive features of this development include an entry gate, expansive open space system with connective trails, and custom designed amenity areas for the four distinctive neighborhood parks.

LVA was responsible for the design themes including conceptual gate structure plans for the entry and custom ramadas, site planning, lotting design and amenity layout. LVA also created the construction documents for the landscape and irrigation design, as well as the amenity areas.

Project Information

- Large lot luxury homes
- Four community amenity areas
- Trail system throughout open spaces
- 180 acres
