

The Boulders

Scottsdale, Arizona

The Boulders is a resort, golf, and residential community located in north Scottsdale, Arizona. The sensitive design and planning of the project has enabled it to integrate into an unparalleled natural setting. Striking vistas surround each use within the Boulders community. Spectacular boulder features, mountains, golf courses and natural desert vistas envelop the site.

LVA provided master plan rezoning and site design revisions for much of the community, comprehensive site planning and zoning services, lotting and platting, landscape architecture, Design Review Board support, Architectural Review Committee membership, and digital imaging.
